

Scottish Resource Centre

For Women in Science, Engineering & Technology

Free Personal Development Workshop

Self-promotion, professional networking and career progression

Tuesday 26 April 2011

9.30am – 4pm

Classroom 3/08, Craiglockhart Campus, Edinburgh Napier University

Refreshments and buffet lunch provided

Trainer: Sam Pringle, BeeLeaf Consulting

A personal development workshop aimed at women working / or qualified in the science, engineering and technology sectors.

What to expect from the day:

- Brainstorm barriers to career progression
- Grow professional networking opportunities
- Develop your interpersonal skills through exercises
- Use the STAR technique to communicate your competencies
- Feel more confident at marketing yourself
- Problem solve with other women in similar industries

What women have said about these courses:

'A wonderful day, but also an investment into the rest of my career'

'...helped me feel confident in my abilities and know that I am not alone'

'...I now have a new meaning for thinking outside of the box'

The Scottish Resource Centre for Women in Science, Engineering and Technology works to create sustainable change for the participation of women in science, engineering, technology and built environment (SET) sectors in Scotland. We do this by changing employment practices and workplace cultures to support gender equality, and supporting the recruitment, retention, and success of women where they are significantly under-represented. If you have questions about this event please contact src@napier.ac.uk
