

# Women's Support Project

## Anti-porn slideshow training

### Tuesday 23rd February 2010

Adelphi Centre, 12 Commercial Rd, Gorbals, Glasgow G5 0PQ

*Are you tired and angry at the endless objectification & sexualised representations of women and girls?*

*Are you concerned that the mass media reduces women and girls to sexual objects and encourages men and boys to be sexually callous and predatory?*

*Do you ever feel overwhelmed by pornography ?*

*Are you worried about and want to challenge the multi million pound porn industry's influence on our culture?*

*Are you tired of being called a prude and being told that you don't get it when you challenge this?*

**You aren't alone.**

**Do you want to do something about it?**

Why not become an anti-porn presenter and attend a free one day training session **Tues 23rd Feb?**

This event is aimed at people who have an interest in raising awareness of the harm caused through pornography. You will have the opportunity to view slideshows, discuss different approaches to anti-pornography awareness raising, and consider how you could take the issue forward in your area.
