

EVERYWOMAN

...because women are more likely to be poor than men

BUY NOW, PAY LATER — WHO GETS THE CREDIT?

Consumer lending and making ends meet means women spiralling into debt and poverty

IT'S STILL A RICH MAN'S WORLD

Mums doing sums—balancing care, lower pay and debt. Are we avoiding the issue... the gendered nature of poverty?

IT ALL ADDS UP

Lone parents are more likely to experience persistent poverty than two parent families...and 9 out of 10 lone parents are women

- Guide book

HORRORSCOPES: Your credit is running out!!!

DEBT

Debt is a gendered issue as it is associated with low income. Women are amongst those most likely to have debt associated with poverty such as catalogue debt and loans to home-collected credit providers.

Get the message that poverty is a gendered issue to your MSP – Send to them at The Scottish Parliament, Edinburgh EH99 1SP
